NICHOLALALA

My friends who are single tell me that often people don't break up these days. When they no longer want to date the person they do a thing called "ghosting"

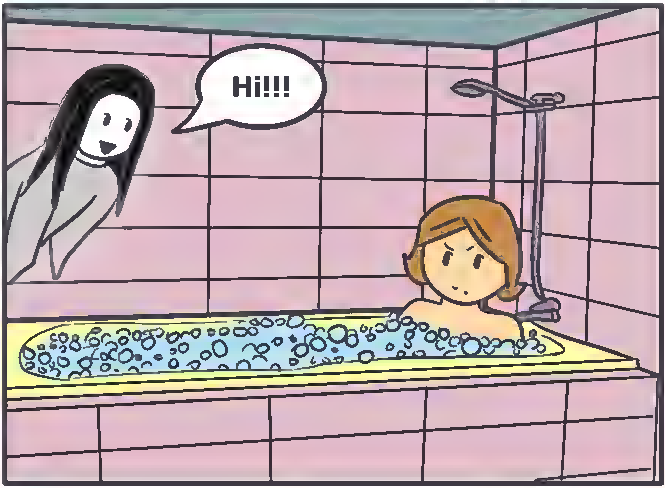
What's that?

It's when one person stops texting and calling so that eventually the other person realizes they have been dumped.
The person disappears...

...like a ghost

Oh. But that's not at all what ghosts do!
I'm always around!

Yes, I know.



Hi!!!
